Most people do not succeed for the simple reason that they are out of position. Opportunity knocks at their door, but they are out to lunch. The biggest factor keeping most people out of position for success is bondage to the past. Guilt, shame, regret, anger, bitterness, an unforgiving spirit and other baggage from the past prevent people from moving forward. People who focus on the past cannot focus on the prize of the upward call of God in Christ Jesus, which is the destiny of every believer.
